PROFESSIONAL PROFILE

Network and infrastructure specialist with 20 years of experience designing, securing and supporting enterprise environments across Oman, the UAE and Pakistan. Proven delivery across FortiGate firewalls, Cisco and Juniper networks, SD-WAN, IPSec and SSL VPN, enterprise wireless, network monitoring, cloud administration and multi-site operations. Combines hands-on engineering with disciplined troubleshooting, documentation and service continuity.

CORE EXPERTISE

Network Architecture Core and branch networks, LAN/WAN, TCP/IP, routing, switching, VLANs, segmentation	Security and Firewalls FortiGate, Juniper SRX, NAT, security policy, IPS, access control, secure zones
SD-WAN and VPN FortiGate SD-WAN, IPSec VPN, SSL VPN, site-to-site connectivity, redundancy	Wireless and Switching Cisco CBS350 and C9200L, FortiSwitch, FortiAP, Aruba Instant On, UniFi
Monitoring and Support SolarWinds, PRTG, WhatsUp Gold, Cacti, Wireshark, SNMP, incident resolution	Workplace Infrastructure Azure Intune, Okta, Microsoft 365, Google Workspace, Jira, NAS/SAN, IP telephony

SELECTED CAREER IMPACT

- Supported a nationwide government network connecting 400 sites.
- Delivered multi-site FortiGate, FortiSwitch, FortiAP, Cisco, Aruba and UniFi infrastructure.
- Implemented SD-WAN over IPSec to improve traffic routing, resilience and branch connectivity.
- Managed security, workplace technology and network operations across enterprise environments.

PROFESSIONAL EXPERIENCE

Network and Infrastructure Specialist

National Energy Center

April 2026 - Present | Seeb, Oman

- Configure and support FortiGate FG40F, FG60F and FG201E firewalls, including policies, IPS and VPN tunnels.
- Implement FortiGate SD-WAN over IPSec to strengthen route selection, redundancy and multi-site connectivity.
- Install and administer Cisco CBS350 and C9200L switching, FortiSwitch 148F-POE and FortiAP 221E infrastructure.
- Deploy Aruba AP25, Aruba Instant On 1930, UniFi Cloud Key G2 Plus and UniFi U6+ wireless environments.
- Provide LAN/WAN troubleshooting and operational support for NAS/SAN storage, collaboration platforms and Yeastar, Avaya and Cisco voice systems.

Network Security Engineer

Infinite Information Technology LLC

April 2024 - April 2026 | Muscat, Oman

- Designed and maintained FortiGate firewall environments using FG40F, FG60F, FG101E and FG201E appliances.
- Built IPSec VPN connectivity and implemented SD-WAN for secure, resilient inter-site traffic.
- Deployed Cisco switches, FortiSwitches and FortiAPs across multiple customer locations.
- Created security policies and intrusion-prevention controls and provided ongoing LAN/WAN troubleshooting and optimization.
- Supported Aruba and UniFi deployments, Google Workspace and Outlook administration, storage systems and IP telephony.

IT Support Engineer

Motive formerly KeepTruckin

March 2019 - April 2024 | Lahore, Pakistan

- Configured FortiGate 500D firewalls, VPN connectivity, Cisco 3500 switching and core network services.
- Monitored network and VPN performance using SolarWinds, PRTG and WhatsUp Gold.
- Administered Azure Intune, Okta, Jira, Google Workspace, IP phones and IT inventory.
- Managed NAS/SAN storage and delivered responsive end-user and infrastructure support.

EARLIER EXPERIENCE

Network and Systems Engineer

Elegant Serve Technologies

March 2014 - January 2019 | Dubai, UAE

- Designed and implemented Cisco and Fortinet firewalls, switching and wireless infrastructure for client projects.
- Installed servers and configured Cisco and Avaya IP telephony.
- Designed network infrastructure supporting Bosch door access control and CCTV NVR systems.

Network Engineer Core Networks

Central Directorate of National Savings, Ministry of Finance

November 2010 - February 2014 | Islamabad, Pakistan

- Designed core networks, VPNs, security zones and routing policies for a nationwide environment.
- Configured and troubleshooted Juniper ISG and SSG firewalls, Juniper switches, Cisco routing and switching, and FortiGate 1000C infrastructure.
- Monitored network and VPN availability and supported 400 connected sites.

Network Systems and Telecom Engineering

Private and Government Projects

March 2006 - October 2010 | Pakistan

- Served FBR PRAL's Motorway Project as Network Engineer and Hulk Technology as IT and Network Administrator.
- Worked on WARID Phase VI with PowerTech as BSS Engineer, including Huawei BTS 3012, site quality checks, VSWR testing, acceptance support and 3G and 4G drive testing.
- Configured Cisco routers and switches, performed upgrades and diagnostics, and served as acting team lead.

CERTIFICATIONS AND TRAINING

- Fortinet Certified Associate in Cybersecurity - achieved September 2025, valid through September 2027
- Fortinet Certified Fundamentals in Cybersecurity - achieved September 2025, valid through September 2027
- FCA FortiGate 7.6 Operator self-paced course - completed September 2025
- Juniper Networks Certified Associate Junos
- Juniper Certified Internet Associate - Enterprise Routing and Enterprise Switching tracks
- Juniper Certified Internet Specialist - Enterprise Routing track
- CCNA Security and Cisco Networking Academy CCNA Exploration coursework
- Microsoft Certified Professional, Microsoft Certified Solutions Associate Office 365 and Microsoft Azure Infrastructure Solutions

EDUCATION

Bachelor of Engineering in Information Technology

Computer Systems Networking and Telecommunications | University of Engineering and Technology Taxila, Pakistan | 2002 - 2006

LANGUAGES

English - Professional working proficiency | Urdu - Native or bilingual proficiency
