PROFESSIONAL SUMMARY

Technical CRM, automation, and systems specialist with hands-on experience building and configuring **Close CRM, HubSpot, Salesforce, GoHighLevel, and Apollo**, alongside websites, integrations, and business infrastructure. Experienced in CRM architecture, workflow automation, data synchronization, DNS/email authentication, EDI and database-related technical work, WordPress, and modern Next.js development. Focused on reliable technical execution, clean system design, troubleshooting, and translating business requirements into working systems.

PROFESSIONAL EXPERIENCE

CRM Technical Specialist | MCMCRM

Dec 2024 – Present

- Built and maintain HubSpot CRM environments including custom properties, pipeline structures, automated workflows, dashboards, and reporting.
- Developed lead-routing and lifecycle automations, and handled DNS/email authentication and SEO-related technical setup.

CRM & Automation Developer | AgiComply

Dec 2025 – Present

- Built the HubSpot CRM environment from scratch, configuring properties, pipelines, and automations to business requirements.
- Set up technical integrations connecting the CRM with LinkedIn-based outreach tooling.

CRM Implementation & Automation | Sigma Procurement

Sep 2025 – Present

- Built the CRM system from the ground up and developed automations for broader business processes.
- Delivered the technical CRM implementation remotely for an international client.

CRM Technical Support | RouteTrax

Nov 2025 – Present

- Customized and configured the CRM environment to match operational workflows.
- Provided ongoing technical systems support, troubleshooting, and maintenance.

CRM & Systems Support | Time Doc Health

Present

- Provided technical CRM configuration and systems support.

Technical Systems / EDI & Database Support | Invenits

Current

- Worked on EDI-related technical processes and database operations, including reviewing, troubleshooting, and maintaining structured business data.
- Supported technical troubleshooting around EDI documents, data flow, and database-related issues.

Close CRM — CRM Setup & Sales Operations

- Configured Close CRM for contact and lead management, pipeline organization, and sales operations.
- Managed CRM data, lead stages, activities, and sales processes.
- Supported workflow optimization and CRM operations to align with business requirements.

Apollo / Outreach Technical Setup | Pakko Packaging

Jan 2025 – Mar 2025

- Configured Apollo, including account setup, integrations, and technical configuration for outbound email outreach.

WordPress Developer / Technical Support | Creaxa Agency

Jul 2024 – Jan 2025

- Delivered WordPress development and website optimization work.
- Provided technical support and configured Google Workspace for business operations.
