Professional Summary

- CCNA Security Certified | Juniper Certified | FortiGate Firewall Expert | Aruba Network
- Network Infrastructure Setup: Cisco Switches CBS350, C9200L (iOS Installation & Configuration), FortiSwitches 148F-POE, FortiAP 221E.
- SD-WAN Configuration: FortiGate FG40F, FG60F, FG101E, FG201E, SD-WAN setup and optimization.
- Network Monitoring & Troubleshooting: Solarwinds, PRTG, WhatsUp Gold, Cacti, Wireshark, SNMP tools
- Secure Network Design: Access control, segmentation, firewall rules, VPN.
- Firewall Management: FortiGate (NAT, Policies, SSL VPN, IPS), Juniper SRX
- IPSec VPN with SDWAN in Fortigate Firewall.
- Experience in Managing, Monitoring and Handling of VPN, VPN tunneling, Vlan, security policies and Zones (routing/policies) in Juniper 1000C, Cisco ISR 900 and other vendor devices.
- Working Experience in Managing, designing, configuring and Implementing Networks and its device Like Cisco, Juniper, FortiGate (Fortinet).
- Implementation and configuration of Aruba AP's (AP25) and Switches (Instant On 1930)
- Implementation and configuration of Unifi controller (Unifi Cloud Key G2 Plus HO) and AP's (Wi-Fi U6+)
- Works Experience in IP Phones configuration Like Yeastar P560, Avaya IP OFFICE IP500, Cisco CUCM.
- Knowledge of Azure Cloud Management.
- Knowledge of Office 365 Management.
- Knowledge of G-Suit Management.

Work Experience

April 2024 To Till Date:

Working in **Infinite Technologies LLC Oman** working as **Network Security Engineer**.

My Responsibilities are:

- **Fortigate** FG40F, FG60F, FG101E, FG201E Firewall configuration
- **Fortigate** SDWAN configuration on IPSec VPN.
- Designing and implementing IPSec VPN in **Fortigate** and other vendor devices.
- Installed and configured Cisco switches including IOS upgrade and initial setup.
- Deployed and managed FortiGate firewalls, FortiSwitches 148F-POE, FortiAP 221E across multiple sites.
- Implemented and maintained FortiGate SD-WAN for optimized traffic routing and redundancy.
- Created secure firewall policies, VPN tunnels, and intrusion prevention systems (IPS).
- Provided ongoing network support, troubleshooting, and optimization for LAN/WAN environments.
- Implementation and configuration of Aruba AP's (AP25) and Switches (Instant On 1930)
- Implementation and configuration of Unifi controller (Unifi Cloud Key G2 Plus HO) and AP's (Wi-Fi U6+)
- Experience in Gmail suit and outlook administration.
- Managing NAS/SAN storage devices.
- IP Phones configuration Like Yeastar P560, Avaya IP OFFICE IP500, Cisco cucm.
- Cisco Switches CBS350, C9200L and router configuration.

March 2019 To April 2024:

Working in **Motive Formerly Known as KeepTruckin (US base Company)** working as **IT/Network Engineer**.

My Responsibilities are:

- FortiGate 500D Firewall configuration.
- Designing and implementing VPN and VPN tunnel in FortiGate and other vendor devices.
- Designing and implementation of core networks.
- Cisco 3500 Switched and router configuration.
- Network and VPN Monitoring using Network Monitoring Tools like Solarwinds, PRTG, WhatsUp Gold.
- IP Phones configuration.
- Experience in Azure (Intune), Jira Ticketing, Okta Administration, Gmail suit administration.
- Managing the Inventory of IT.
- Managing NAS/SAN storage devices.

March 2014 to January 2019:

Worked in Elegant serve Technologies (Dubai,UAE) as **Network Engineer** in different projects, some of them are as follows:

- Network design & Implementation of Firewall, Switches and WIFI controller of different vendors like Cisco, Fortinet.

- IP Phones configuration (Cisco, Avaya).
- Servers Installation and configuration.
- Designing the network infrastructure, configuration of Bosch Door Access Control & CCTV NVR.

November 2010 to February 2014:

Worked with Central Directorate of National Savings, Ministry of Finance (Islamabad, Pakistan) as **Network Engineer (Core Networks)**. My Responsibilities were:

- Designing and implementation of core networks.
- Handling and managing security policies in juniper and other vendor devices.
- Designing and implementing VPN and VPN tunnel in Juniper and other vendor devices.
- Design & Handling of Zones and Zones routing/policies in Network devices of different vendor.
- Network and VPN Monitoring
- Configuration, Troubleshoot and implementation of Juniper Switches (JNOs) and firewall (ISG 2000, SSG series etc), Cisco switches & Routers (Switches, Routers at Core level), Fortinet (FortiGate) Firewall (1000c).
- Handling and supporting 400 sites online.

March 2006 to October 2010:

Worked on multiple Projects of Networking/Telecom, in different Private and Government Companies i.e.

- FBR PRAL (Motorway Project) Islamabad, Pakistan as **Network Engineer**.
- PowerTech (Blue Area, Islamabad Pakistan) as **BSS Engineer** I have worked on WARID PHASE VI in Sukkar Region (Sind).
- Hulk Technology (F-10/1, Islamabad, Pakistan) as **IT/Network Administrator**.

My Responsibilities were:

- Managing & Configuration of Cisco Router, Switches and Support services.
- Installation and Upgrades, PC diagnosis and repair, preventive maintenance.
- Work on Huawei BTS 3012.
- Site QC and Testing.
- Able to use Site Master Bird & Anristo for VSWR Testing.
- Assisting Customer (Warid PAT Officer) for PAT.
- Work as an acting Team Lead.
- Drive Test 3G & 4G.

Certification/Diploma/Trainings

Certification:

Fortinet Certification:

- Fortinet Certified Fundamentals in Cybersecurity
- Fortinet Certified Associate in Cybersecurity

Cisco

CCNA (Security)

Juniper Networks

- Certified Internet Associate (Enterprise Routing Track)

- Certified Internet Associate (Enterprise Switching Track)
- Certified Internet Specialist (Enterprise Routing Track)

Microsoft

- Microsoft Certified Professional (MCP).
- Office 365 (MCSA)
- Implementing Microsoft Azure Infrastructure Solutions (MS)

Diploma/Trainings

- **Fortigate Firewall.**
- **FortiAP.**
- **Aruba**
- **Juniper** Firewall (VPN)
- **Juniper** Security Training
- **Juniper** Switching Training (EX-Series)
- Training and Experience in **CCNA** and **CCNP**.
- Training of **MCSE 2012** (Server 2012 R2) and **VMware** (VCP).

Educational Qualification

Bachelor of Engineering in Information Technology

University of Engineering and Technology, Taxila Pakistan

2006
